

Lumistar Luminaire ESL25LED-Ex

II 2G Ex db IIC T6 Gb

II 2D Ex tb IIIC T80°C Db

- **For mounting on sight glass fittings**

Designed for universal applications, this Ex-type sight glass luminaire has been developed for use in potentially explosive environments. It is ideal for combined sight glass and light assemblies, either as a single-flange version or with two separate flanged ports.

- **Compact yet powerful:**

Dazzle-free illumination, for use with circular sight glass fittings

to DIN 28120/DIN 28121 or similar, with screwed sight glass units in compliance with DIN 11851, and in visual flow indicators.

- **Large light aperture thanks to optimised screw-in lens design**

- **Application:**

For illuminating visual flow indicators, pipelines, laboratory mixers, bioreactors as well as the interior of pressure vessels, tanks, agitators and other – normally closed – processing vessels in potentially explosive environments. Gas: Zones 1 and 2; Dust: Zones 21 and 22.

- **Especially suitable for use in sterile and food areas**

- **Protection class: IP65 and IP67 according to DIN EN 60529**

Operating conditions: Independent of the internal pressure/vacuum in vessel. Under no circumstances should a sight glass luminaire be used to replace the mating flange or the sight glass/luminaire assembly or on its own to close a vessel port.

- **Attention: Do not look into light – danger of impaired eyesight!**

- **Lumistar luminaires of this type are approved for use in ambient temperatures up to 50°C.**

- **Technical data Ex protection:**

This luminaire meets the essential safety and health requirements by complying with the regulations for
